

c program

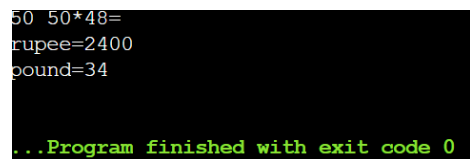

patel Dirgh

August 2025

1 convert dollar to pound

```
#include <stdio.h>

int main() {
    int dollar,rupee,pound;
    printf("50");
    scanf("%d", &dollar);
    rupee=dollar*48;
    pound=rupee/70;
    printf("rupee=%d\n",rupee);
    printf("pound=%d\n",pound);
    return 0;
}
```

```
50 50*48=
rupee=2400
pound=34
...Program finished with exit code 0
```
