1   area and perimeter of rectangle

```c
#include <stdio.h>

int main() {
    int area,perimeter,lenght,width;
    printf("enter lenght,width: ");
    scanf("%d,%d", &lenght,&width);
    (area= (lenght)*(width)), (perimeter=4*(width+lenght));
    printf("area perimeter=%d\n %d\n", area,perimeter);
    return 0;
    }
```
